# GO Teams USA

A 21ST CENTURY ABOLITIONIST MOVEMENT RESCUE 1

## The Life of the Missionary

GO TEAMS USA are short term mission and service opportunities which take teams of individuals, small groups and RI Task Force groups to communities around the US cities to minister the gospel to those involved with human trafficking. Our desire for these trips is to encourage a gospel centered lifestyle that will continue even beyond the short term trip.

The missionary will participate in the life of our church network community. They will cultivate a gospel-centered approach to personal spiritual disciplines, evangelism, benevolence ministry, and missionary team mobilization and training through the life of our congregation. By participating in house church meetings, they will experience and learn about the value of family

worship and small group accountability.

The missionary will be given a daily devotional plan with select readings from the Word of God, short missionary biographies, and a specific journal entry each day to write in response to their devotional material. There will also be several house church meetings in the evenings and on the weekends throughout the community that each missionary will be expected to attend, participate and contribute. The local supervisor will spend at least two hours every week in prayer with the missionary team as well as diagnosing team health and resolving conflict. The missionary teams will be expected to observe a weekly Sabbath on the same day as the local supervisor.

The primary purpose of a missionary team is to help Rescue 1 develop relationships with unchurched business owners, families, traffickers and trafficked victims in different ethnic communities and strategic communities in these cities. Missionaries will also follow up with previous engaged relationship in the community, connect each build or perceived relationship with a Trafficked and Recovery church member, assist in active extractions and placement in a recovery home, and introduce each victim with a mentor.

## Moving Passion to Action

The student missionary will help Rescue 1 research, assess, and prevent trafficking in high risk areas. This will be done through various programs where missionaries will have direct interaction with victims, Johns, law enforcement, and survivors. Missionaries will have an opportunity to participate in the following activities during their trip.

- Engage Johns, victims and traffickers
- Canvas local communities with handouts on trafficking
- Hold bi-weekly town-hall meetings to educate about trafficking in various areas
- Assist law enforcement by reporting potential trafficking engagements
- Share testimonies with team members, survivors, victims
- Pray for each individual we engage
- Conduct a "Least of These Risk Assessment" for victims, Assessing the heart condition of a trafficker, John or victim
- Present a way out and conducting immediate RescueS
- Give victims a beauty product with a Rescue Hotline number for potential future decision to exit
