*"At first, I thought he was my boyfriend. Then he convinced me to have sex with strangers to make money. He was my pimp. I was 15 years old. I was being advertised on the internet and sold for sex to support my 'boyfriend'."*

## OUR DREAM

Our dream is to give girls a space where their hearts can heal, all while being wrapped up in the warm loving embrace of Jesus Christ. With rooms ready, renovated, and waiting, we dream of seeing the living spaces of Grace Oasis enveloped in the sounds of girls enjoying a life of freedom. We dream of an oasis where the people these girls come in contact with want nothing from them except that they enjoy the life of a child rather than a slave. When this dream is fulfilled, you will have been a part of opening the very first safe home of it's kind in Tennessee for girls ages 12-17, that have come out of slavery.

Our aftercare recovery program will provide the counseling, therapy, education, and spiritual guidance these girls need to heal mentally, physically, socially, and spiritually. Almost all of the girls coming out of the trauma of slavery experience PTSD. Grace Oasis will provide around the clock care and encouragement for those young ladies as they pursue healing.

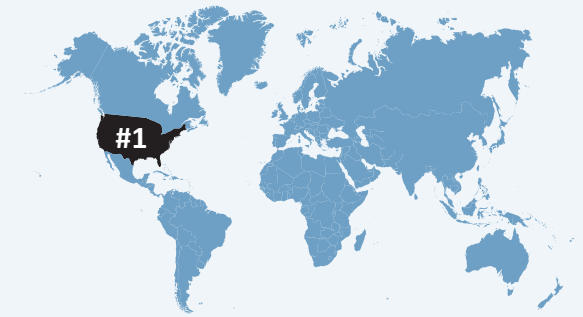

## WHAT IS ONE/1000?

The ONE/1000 campaign is an opportunity for you to be a part of raising the operating capital needed to open Tennessee's first safe house for girls ages 12-17 who have been rescued from a life of human trafficking. Our goal is to partner with 1000 donors who can help us to restore young ladies that will come through the doors of Grace Oasis to a life filled with hope and opportunity.

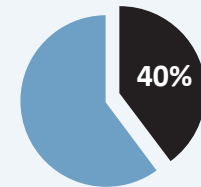

## THE PROBLEM

Sadly, many girls, as they fall asleep at night, are forced to lay their heads on pillows bathed in hopelessness and heartache. Human trafficking is a problem that for far too long has been mislabeled and even worse, swept under the rug. With more than 40 million people enslaved in the world today, the problem of human slavery has gotten worse not better.

## CONSIDER THIS

**The U.S. is the #1 consumer of trafficking.**

**40% of those trafficked will end up in the USA.**

**1/6 Runaways will fall victim to human trafficking.**

There is no official estimate for the total number or human trafficking victims in the United States. The Polaris Project estimates that the total number of victims nationally reaches into the hundreds of thousands when estimates of both adults and minors in sex trafficking and labor trafficking are aggregated. Yet, in the USA, there are less than 2000 beds available in safe homes where intentional, specific care is given to girls are who are survivors of human trafficking.
